THE PERFECTION OF PREPARED COCOA.

MARAVILLA COCOA.

SOLE PROPRIETORS,

TAYLOR BROTHERS,

LONDON.

THE COCOA (OR CACAO) OF HARAVILLA is the true THEOBROMA LINNÆUS. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their sizable plant and elaborate machinery, produced what is so eminently the perfection of prepared Cocoa, that it has not only secured the preference of Homœopaths and Cocoa drinkers generally, but many who had hitherto been unable to prepare on to suit them, have after one trial adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"AN UNPRECEDENTED SUCCESS."

See following Extract from the Globe of May 14, 1868.

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any their ugh success has been achieved until Messrs. Tay or Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.

Adapting their perfect system of preparation to the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Future solubility, delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and invalids we could not recommend a more agreeable or valuable beverage."

Sold in packets only by all Grocers of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and SOLUBLE CHOCOLATE.

Worcestershire Sauce,
DECLARED BY CONNOISSEURS
TO BE
THE ONLY GOOD SAUCE.

CAUTION AGAINST FRAUD.

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to

ASK FOR LEA & PERRINS' SAUCE

and to see that their names are upon the wrapper, labels stopper, and bottle.

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea & Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against Manufacturers and Vendors of such, or any other imitations by which their right may be infringed.

Ask for LEA & PERRINS' Sauce, and see Name Wrapper, Label, Bottle and Stopper.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 11, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866:—"It is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and a place."

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe sickness, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz: Dr. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the inventor was DELIBERATELY UNTRUE.

THE BRITISH COLONIST.

Tuesday Morning, May 11, 1869.

THE last numbers of the Cariboo *Sentinel* bring us two instructive articles on the subject of the mining prospects for the present season. An approximate idea of the auriferous surface still undeveloped is therein set forth, and shows very distinctly that we have a very large extent of mining ground capable of employing thousands of miners for many years to come, still unopened. There is that is only one way to success in Cariboo and that is through the desire to work; if a man is known as a good miner and can be depended on, he need very seldom want employment; and then only in such rare instances as the excessive drought of last season, the consequences of which we trust will be almost obviated for the future by the construction of ditches conveying the water from points where the supply is plentiful to those portions of the district where it becomes much reduced in the summer. The system of hydraulicing is also being gradually adopted, and ere long will assume an importance little imagined at this moment, forming a steady source of remunerative labor long after the present generation has lost all interest in the matter. It is most gratifying to note that the settlement of land is steadily progressing, many miles of the waggon road being continuously fenced in; the luxuriant appearance of the crops, the snug farm houses, and the well fed cattle, would somewhat amaze people who don't know anything about the country, or who draw their inspirations from the press of the Colony. The fact is, the settlement of a country like ours, with climate and natural advantages such as we possess, does not depend upon any factitious circumstances; a crude, illiberal government may retard its progress for a time, but such countries as ours form too rich a portion of the earth's surface to be long neglected. The news from Kootenay is most satisfactory; as the miners proceed with their prospecting the ground gives greater evidence of extent and richness, and the estimated population likely to reach that section from Blackfoot, White Pine and elsewhere, is set down at 10,000. We have previously stated that the former ideas of the source of the gold deposits in that vicinity were quite erroneous, as it is now settled beyond a doubt that the matrix or veins from which it was disintegrated are in the Selkirk Range, hence the present excitement will indubitably lead to further discoveries, placing beyond question the richness of those mountains, which have only been glanced at in Big Bend, almost the other extremity of the range. The Similkameen is now being slowly but steadily explored, the Chinese following in the tracks of the white man. The celestials are a very useful sort of people in their way, but we confess we should prefer to see white men taking out the large sums that these people are known to be daily taking from our soil; it is well, however, that the country should be devoloped, and John Chinaman has shown he is a good farmer as well as an indefatigable miner. A few days ago we placed before our readers some late information from Rock Creek, by which we learn that the kind of mining—usually the last, but, as experience has shown, the best—known as hydraulicing, is being introduced with a great probability of being largely entered into with profitable results. Rock Creek, after being skimmed, was abandoned for other localities, like many other mining camps, and is now returning to favor; we should not be surprised if it ultimately became a populous location. Peace River is again looking up; its great distance from populous settlements has hitherto formed the great obstacle to complete exploration, but the fact of its being rich in deposits of the precious metal is placed beyond a doubt. The expeditions heretofore fitted out for that locality, have not been sufficiently provided with supplies of food, and the exhaustion of that necessary article forced the explorers to return before any great extent of the gold field had been properly tested. The expedition which recently left Quesnelmouth for that quarter took supplies for two years, and will thus be enabled to make a thorough examination of the river and its banks before they will require to return; we anticipate great results. Stekin river is still worked by a small number of miners, but to ascertain its actual wealth as a gold field, it will be necessary to send out an expedition similar to that now on its way to Peace river; the impression that there are rich deposits near its sources remains unchanged. Altogether the gold mining prospects are extremely favorable, and in extent and possible results have never been excelled. Our merchants should be up and doing in order not only to secure the chance of profitable trade, but also that our hardy fellows may be given every facility to continue their explorations, by making supplies easy of attainment, hence cheap. Food, next to water for mining purposes, is the great thing needful for the miner; with good supplies of these desiderata, we shall not be long before we get rich returns from the diggings.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DISPATCHES

Eastern States.

WASHINGTON, May 6.—The Secretary of the Treasury will purchase five-twenty bonds to the amount of a million a week.

CHICAGO, May 6.—The *Republican's* Washington special says, regarding the departure of the steamer Arago with men, arms and munition of war for the insurrectionary army in Cuba is not credited by the President, Secretary of State nor the Attorney General. Secretary Fish thinks it possible a small force may have gone off with clearance papers for peaceable ports, but he received no information on the subject.

HARTFORD, May 8—The Senate ratified the 15th amendment; 12 Republicans voting for it and 5 Democrats against it.

NEW YORK, May 8—Attachments in the case of Cushing and others, owners of the American ship Sonora, destroyed by the Alabama against the proceeds of the prize steamer Wren, owned by Mr. Laird, builder of the Alabama, came up in the United States Districts Court. The decision is looked for as important as forming a precedent in regard to the action of the Alabama claims.

The *World* insists that the Arago did sail for Cuba with 424 men, and 84 officers and Gen. Jourdan. The *World* says that four other vessels sailed within three weeks after the first. The *World* says that within the last three days we have positive information that 9,000 men left the cities of Charleston, Baltimore and New Orleans for a point adjacent to the Cuban coast, and for the Island itself; 2,500 left the city of New York, and 500 more are now waiting to get off.

NEW YORK, May 6.—The British brig Lizzie, from the Carribean Sea arrived to-night, bringing the passengers who were taken from the schooner Lizzie Major by the Spanish and subsequently released from prison at Reindos.

The steamer Ascota, which arrived this morning from Copenhagan, had several cases of small-pox on board. The sick were sent to the small-pox hospital at Blackwell Island. The steamer will be detained at quarantine till all the danger is over.

The Mount Vernon estate of General Washington is advertised this evening to be sold on the 10th of June.

WASHINGTON, May 7.—Governor Curtin, President of the East India Telegraph Company, and A. K. McClure, Solicitor of the Corporation, had interviews with the Secretaries of State and Navy in relation to the introduction of telegraph into China. The Company have a grant procured by Burlingame when he was a Minister, authorizing them to lay a cable between Canton and Shanghai, thus connecting the commercial cities of the Asiatic Coast by telegraph. They have five hundred miles of cable ready to ship and lay down, and will have the remaining 500 ready during the summer. Orders will be issued to the commander of the Asiatic squadron to send all necessary aid and protection. This line will be completed in the present year.

NEW YORK, May 8.—Arrangements have been made for a special service at Trinity Church to-morrow noon, in thanksgiving for the completion of the railroad across the continent.

CHICAGO, May 7.—The President has ordered the Virginia election for last Tuesday in June or the first Tuesday in July.

SPRINGFIELD, Mass, May 8.—The entire force of the Workmen's Societies in this city, this afternoon, celebrated the opening of the Union Pacific Railroad. They are now building fifty-two passenger cars and a large number of freight cars.

NEW YORK, May 8.—The Spanish Consul had an interview with Marshal Barlow, this afternoon, and stated that he had received positive information that a steamer and several small sailing vessels were being fitted out to take volunteers and arms to Cuba for the insurgents. He demanded that such expeditions should be stopped, and called attention to various recruiting offices in this city.

The Marshal yesterday received an order from Secretary Fish to prevent any such breach of the neutrality laws.

The Pacific Railroad Completed!

MONTGOMERY-SUMMIT, May. 12 M.

To the Associated Press, East and West:

The last rail is laid, the last spike driven. The Pacific Railroad is completed; point of junction ten hundred and eighty-six miles west of the Missouri River, and six hundred and ninety miles east of Sacramento.

(Signed) LELAND STANFORD, C. P. DURAND, SIDNEY DILLON, JOHN DUFF.

Europe.

LONDON, May 7—There have been several heavy robberies of arms, ammunition, etc., in various parts of Ireland during the past few days. At Belfast large quantities of arms were stolen last evening; five persons were arrested this morning on suspicion.

Dispatches from Cork mention similar outrages. There seems to be no doubt but that the culprits belong in every instance to the Fenian organization. The police are ordered to exercise unusual vigilance.

Canada.

OTTAWA, May 8.—Rose made a financial statement in the House of Commons. He said the estimated receipts of the coming year will exceed the expenses a quarter of a million.

Holton gave notice that an address should be presented to Her Majesty, expressive of the deep interest felt in the passage of the Irish Church bill.

Bishop Connolly, of Halifax is here. He strongly urges the release of the Father McMahon.

Nova Scotia.

HALIFAX, May 7.—A special meeting of the Repeal League was held last night; much diversity of opinion prevailed; one member read a paper on annexation, but no action was taken by members of the Government who denied that it was intended to accept the situation. It was resolved to hold a convention of delegates from various leagues in the Province shortly.

California.

SAN FRANCISCO, May 9—Business was universally suspended yesterday, and the whole city gave themselves up to celebrating the completion of the railroad. The procession was a splendid affair, considering the haste in which it was gotten up. The whole city was decorated with flags and at night the illumination was universal; bonfires blazed in every corner, and the streets were literally jammed with humanity.

Commencing May 8th, the fare for first-class passage from Sacramento to the Eastern terminus of the Central Road, is $50 coin, or $67, currency; Ogden to Omaha, $77 40, currency; Omaha to Chicago, $22, currency; Chicago to New York, $20, currency. Children, under twelve years, half fare; 100 pounds of baggage free.

Arrived, May 8—Bark Forest Queen, 6 days from Port Ludlow.

Sailed, 8th—Steamer Continental, Portland; ship Isaac Jeans, Seabeck; bark Gem of the Ocean, Victoria.

A MAN DIGS HIS OWN GRAVE AND COMMITS SUICIDE—The Norwich *Bulletin* says that for some time past Isaac S. Pickering of Brooklyn, Connecticut, has been digging his own grave and speaking of taking his own life. Everybody supposed him to be joking, and a few days ago, in speaking about it to a neighbour, an offer was made to help him dig his grave when he got ready. The offer of assistance was made in derision, but he accepted, and procuring shovels, the two went to his lot in the cemetery and commenced digging near his wife's grave. After working a while the neighbour told him that he had carried the joke far enough, and quit work. Pickering, however, finished the grave before leaving. Thursday noon he went to the post office and remarked, while there, that he would go off in about two hours. Soon after he started for the cemetery, followed by two or three boys. On arriving at the grave he took off part of his clothes and told the boys to carry them home. About half-past two he sent up to the village to have more come down to see him kill himself, but with the exception of a few more boys nobody came. A few minutes before three he drove the boys back from the grave and beyond the hedge, and precisely at three he shot himself in the temple, killing himself instantly. He was nearly fifty years of age, and was always of an eccentric turn of mind.

A farmer in Griswold, Conn., has published an account of his turkey ventures, with expenses and profits, from June, 1868, to January, 1869, as follows: Credit—93 turkeys killed, 1426 lbs., at 27 cents per lb., $385 02; 3 turkeys not killed, estimated at $9; total $394 02. Debtor—110 bushels of corn at $1 50, $165; cost of butchering, etc., $10; total, $175. Net profit, $219 02.

WHITE PINE.—A writer in the Portland *Commercial* of a late date says:—"The country is very sickly and much sickness prevails. The altitude of the White Pine region, is about 9,800 feet above the level of the sea. I left Treasure City on the 20th of April for home. When I left there the snow was two feet deep, and still falling fast, accompanied by a terrific gale, which prostrated houses and tents. Hamilton is a town containing about 4,000 inhabitants. Treasure City at present contains near 9,000 souls So far as the difference in the two places is concerned, I did not perceive much, as to the prices of living. It costs "money" to live there; and a man who has not plenty, has no business there. What I would say to the citizens of Portland is, if any one should desire to go to White Pine, they must run the desperate chances of fickle fortune, or "luck," as the miners term it, besides the chances of leaving their bones among the rocks and canyons of that auriferous region; for there the stoutest and most robust men sometimes sicken and die within a few days after their arrival. On an average there are more sickness and deaths at White Pine than any place I ever was in before. Many of the mining camps resemble army hospitals during warm weather."

MUSHROOMS.—Mr. Bushell of the Blue Post, Johnston street has sent us two splendid mushrooms grown from spawn of that vegetable obtained from England, showing that this delicious adjunct to the *cuisine* may be easily produced in the vicinity, with a little preparation. The spawn is sent out here in the shape of what are called bricks, these are formed of the soil thoroughly impregnated with the germ of the mushrooms. In this state it is tightly compressed, and will continue good for a long time. The way to cultivate the mushroom from this compost is to break it into small bits and place it, one morsel in about a foot square of soil, prepared with good, nutritious horse manure. The bed should be so situated as to be exposed to the sun the whole of the day, and the portions planted, are covered, so as to be kept warm, say with cabbage or lettuce leaves, or any other protecting material. Grown in this way they attain large dimensions and are rich in the flavor for which they are celebrated.

TESTIMONIAL.—The Portland papers contain the following flattering card, signed by the Holladay excursionists to Puget Sound. "To Capt. Sholl and officers of the steamship Oriflamme—Gentlemen: As guests of Ben. Holladay, Esq, on the excursion just completed to British Columbia and Puget Sound, we beg leave to testify to the very handsome manner in which you have acquitted yourselves in the management and details of the ship. The skill manifested in the sailing of the ship and the entire absence of objectionable language so common on our steamers, has been of universal remark, and our best wishes are hereby conveyed for your future success and welfare."

DRAWING A KNIFE.—Jack, an Indian, appeared yesterday in the Police Court to answer to a charge preferred against him by Samuel Taylor, for drawing a knife on him. The prisoner said he was drunk at the time and did not know anything about the affair. He was remanded for one day.

THE G. S. Wright sailed for Puget Sound last night. After landing passengers and freight at the different ports, she will sail for Nanaimo to take in a cargo of coals for Portland.

QUEEN'S BIRTHDAY FETE.—As the Queen's birthday draws near, much anxiety is shown by the various parties who have their divers descriptions of amusements to get up to form for the occasion. It appears to us that the principal amusements, viz: the regatta and horserace, at least, should be made to adapt themselves in order that both may be seen by everyone, particularly our visitors from the other side. If, for instance, the regatta and the horserace came off on the same day, there will be numbers present at each who must of necessity miss one or the other. Now, if these affairs could be managed so that the regatta came off on Monday and the horse race on Tuesday, or *vice versa*, each would be a success, and our guests would be prepared to leave us on Wednesday, the usual time for the Sound steamers to sail. It would be well if those who may be called upon to aid these events, would stipulate for the above arrangement, or appoint a central committee for the management of the whole. However the different arrangements are made, care should be taken that the amusements do not clash.

As our readers will learn from our telegraphic dispatches, the iron bonds that now unite the Atlantic with the Pacific, are complete—another great stride in the world's progress. Our own impression is that this is the opening of a new era, and that the future great nations of the earth will dominate the universe from the Pacific. The completion of the Pacific Railroad is the opening of the first sluice that will let in the human stream that is ready to flow from the shores of the Atlantic. The immigration that must result from this great event will be immense; but when the other lines are also completed, we shall be no more heard complaining of a want of population; even female immigration will then be at a discount. This news must be truly gratifying to those who see a great future for this Colony; not only will prosperity be everywhere visible, but the discontented growls of croakers will be drowned in the hum of many voices.

PUGET SOUND.—Great activity prevails on the Sound; upwards of 1400 vessels passed up and down last year, with a great probability of a large increase in the present one. The new law in California compelling the landowners to fence in their property, has created a great demand for the lumber adapted for that purpose, and the mills on the Sound have employment in cutting up the proper material which will occupy them for two or three years. This of itself will attract population.

A WONDERFUL BLOSSOM.—Mr. P. Lester, of Vancouver street, yesterday brought us an apple blossom plucked from a tree in his garden, which presents the characteristics of a tea rose, with the exception that one side has a slight tinge of purple. The blossom is about the size of a hen's egg: the leaves close in like those of a rose, and have a delicate perfume. The twig to which this blossom-rose is attached undoubtedly grew upon an apple tree; and what is equally strange is the fact that the same tree is covered with blossoms, none of which present extraordinary features.

THE non-dispatch of a direct steamer to Victoria from San Francisco is affecting seriously the interests of our English merchants, who have express packages of seasonable goods detained at San Francisco, simply because they cannot be transhipped at Portland. It is hoped that our Government will take a decisive step which will preclude the possibility of annoyance and loss in the future.

QUEEN'S BIRTHDAY RACES.—At a committee meeting held last evening it was resolved to have horse-racing on the Queen's Birthday. His Excellency the Governor has kindly extended his patronage to the sport. The races will be four in number and open to all horses on the Island, subject to certain restrictions. Mr George Richardson is authorized to collect subscriptions.

FROM PUGET SOUND.—The steamers Anderson, Capt. Finch, and Wilson G Hunt, Capt Waitt, arrived from Olympia and way ports last night, within a few minutes of one another, bringing a large number of passengers and freight. The news will be found in another column. Purser Myrick and Finch have our thanks for customary favors.

THE CELILO is the name of a little Columbia river steamer that is coming up to run as a tow-boat on Puget Sound. The steamer George S. Wright attempted to tow her across Columbia River Bar on Saturday and Sunday last; but owing to the prevalence of a heavy sea sent her back to Astoria.

THE WILL OF MR. HEPBURN.—A San Francisco dispatch states that the will of James Hepburn has been admitted to Probate, and letters of administration issued to William Lane Booker, the British Consul. The estate is valued at $56,000.

THE steamship George S, Wright arrived at one o'clock yesterday from Portland, bringing a fine freight and 27 passengers. Among the latter were A. Watson and J. Kamm, Esqs. Capt. Langdon reports a pleasant run across. Mr Tarbell, purser, has placed us under obligations for files of late papers.

THE brig Byzantium is advertised for sale by auction on the 18th inst., at 1 p. m., by order of the Vice Admiralty Court. Private application for purchase will be received by Mr Austin, the Marshal in Admiralty, up to the day of sale.

A. GILMORE, Tailor, wishes to inform his friends and the public that he is selling off the balance of his winter stock at cost to make room for spring goods. *

MR. FLANDERS, the new Governor of Washington Territory, reached Olympia, where he was received with appropriate honors, and subsequently left by the Wilson G. Hunt, arriving in this city last night.

BASE BALL.—The Rainer Base Ball Club, through their Secretary Mr. R. G. Hays, have accepted the challenge of the Olympics of Victoria to play a game of base ball at Victoria on the 25th of May.

COALS TO NEWCASTLE.—We observed a quantity of Oregon flour being shipped on the Sir James Douglas yesterday for Cowichan! Why should this state of things continue?

THE steamship Gussie Telfair is announced to leave Portland for Victoria this afternoon. She will connect with the San Francisco steamer at Astoria.

THE brig Robert Cowan has arrived at Portland, Oregon, with a cargo of Sandwich Islands produce. This vessel was expected at this port.

A youth of 19 summers proposes to walk from San Francisco to New York, starting on the 15th inst. from the first named city.

THE Portland *Herald* states that no combination has been entered into by the steamships Gussie Telfair and George S. Wright,

CHEAP SHAVING.—Having recovered his health, Fred Payne's shop is again open to the public. Prices as before. *

THE spar-laden ship Golden Age sailed yesterday morning for London, England.

The Shipping Master Petition.

EDITOR BRITISH COLONIST.—A petition has been circulated on Wharf street during the last day or two, not only calling on His Excellency the Governor to appoint a shipping master, but naming the individual for the post. This office if created can only apply to British vessels. I suppose the fees received from men for such vessels might amount to from $100 to $200 per annum; the Shipping Master's office, expenses and salary will fall little short of $2,000 per annum, thereby adding that amount (less the sum received for shipping fees) to our already excessive expenditure, and this is all we shall gain by the movement. It will not in any way stop or even check desertion, any more than it will the rascally demand for blood money; the deserter will either go to the American side or ship on the foreign vessel; he will not present himself at the shipping office where he is sure to be detected. I trust His Excellency will not add to our over-burthened backs another $2,000 on this account, when we can get the work as well done, as it has long been, for nothing.

ANTI-HUMBUG.

Victoria, 10th May, 1869.

DELAYED DISPATCHES.

Eastern States.

NEW YORK, May 6.—The *Herald* says the steamer Arago put to sea on Monday, not Tuesday, and up to the hour when she was left by the pilot had not taken on board any ambitious adventurers, but only a full complement to work her. She goes to replace in the Peruvian service the vessel just lost. She goes with the permission of our Government to change her flag while out.

CHICAGO, May 5.—The Kansas City *Journal* gives an account of the disturbance on the Cherokee neutral land along the Missouri river on the Fort Scott and Gulf railroad. The Kansas land leagues say they have 1000 men enrolled and that 10,000 more will rise at their bidding to prevent the building of a road. Chanot, the Chief Engineer, has forwarded full dispatches of these violent proceedings. Most of the men have returned to Fort Scott. Citizens are also fleeing from what they call a reign of terror, and report that threats are freely made against those who favor the road.

NEW YORK, May 5.—At the billiard tournament this afternoon, Snyder beat Daniels. In the evening, Foster beat Rudolph.

The instructions relative to the Alabama claims are known to be based on Sumner's speech, which seems to have been made our ultimatum.

Motley is directed to be in no hurry, but to await a favorable opportunity for opening negotiations on the subject.

The Richmond *Southern Opinion* announces its last publication this morning. The editor has for some time thought that perhaps the mission of the *Opinion* had been fulfilled. He adds, that the distinct southern principles upon which the paper was founded are dead in the hearts of the people. Another fact, which we cannot but recognize, is that no cause, however just or good, can long outlive defeat.

NEW YORK, May 1.—Robt. M. Haldenraid, a German nobleman, committed suicide to-day.

No one connected with the administration, including the President and the British Minister, apprehends any injurious consequences from the rejection of the treaty by the Senate, and this is stated on the assertion of a gentleman who was fearful of serious difficulties, and who made special and private inquiry in official circles, and thus satisfied himself of the truth of this statement.

WASHINGTON, May 1.—Gen. Robert E. Lee, accompanied by Mr. and Mrs. Taggart of Baltimore, called on the President to-day. The visit was a short one of courtesy merely. Minister Motley was present.

Gen Rosecrans favors a loan of several millions to Mexico, for which she will give the United States a mortgage on Sonora, and perhaps sell us that territory at a reasonable figure. He desires to remain long enough to carry out that scheme, but Minister Nelson left about the middle of May.

The Government has given Rosecrans' messenger, Dr Brink, no encouragement whatever.

It has been ascertained from authoritative sources that the Juarez Government will not countenance the propositions relative to the sale of Mexican Territory.

The N. Y. *Herald* says dispatches have been received by the British Minister from the English Consul at Havana, giving an account of other Spanish outrages on the high seas. According to this dispatch, a Spanish war vessel hailed an English brig at sea, and the latter refusing to stop was fired into and sunk. This is the substance of the dispatch which Mr Thornton sent to his Government over the cable. As the dispatch is extremely meagre, not stating whether the information respecting the outrage was received originally from the Spanish man-of-war or from some of the survivors of the sunken brig, the authorities here scarcely know whether to credit it or not.

Canada.

QUEBEC, May 5.—The trial of Challoner for the murder of Ensign Whitaker, for seducing his sister, terminated last night. The jury was out all night, and returned a verdict of not guilty. Challoner was loudly cheered outside of the Court room.

Europe.

LONDON, May 5.—In the House of Commons this evening, Sullivan, Attorney General for Ireland, on moving leave to bring in a bill to disenable the present Mayor of the city of Cork from acting as a Magistrate, proceeded to give his reasons for it. He gave the history of the disgraceful conduct of the Mayor up to its culmination in the inflamatory language used at the dinner given in Cork to Warren and Costello, and said, after much consideration, the Government had come to the conclusion that the present step was advisable.

Several members deprecated the course of the Government, as constitutional power in ordinary actions at law was open for a remedy. Sir John Gray, member for Kilkenny, and Maguire, member for Cork, urged giving the Mayor a full opportunity for meeting the charges against him. They complained that the action of Government leaned only on newspaper reports.

Disraeli deprecated as imprudent the release of the Fenian prisoners. If action for seditious language had been taken earlier, the present step would not be necessary. He would not oppose the introduction of the bill; but he urged the House to consider well the step proposed and the constitutional questions involved.

Fortescue, Secretary for Ireland, assured the House that every facility would be given the Mayor and his friends to reply. The Government would take care not to give any ground for complaints of injustice. In further argument on Irish affairs he intimated that he intended to propose a commission to investigate the conduct of the police in the late disturbance at Londonderry.

After further remarks from Gladstone and Gathorne Hardy in support of the measure, leave to introduce the bill was granted, and it was read a first time and ordered that a copy of the bill and notice, before a third reading, be served on the Mayor of Cork.

LONDON, (Midnight) April 4—In the House of Commons, while the Irish Church bill was under consideration, Gladstone proposed the names of Lord Monck, late Governor General of Canada, Justice James Anthony Lawson and Geo. Alexander Hamilton, L L D., to be inserted in the clause as the 3 Commissioners on Church temporalities in Ireland, constituted under the Act of Disestablishment.

The *Times* has another article on the Alabama treaty, saying the questions of law not feeling remains. It cannot be shown that Great Britain can be held answerable for any infraction of law or excess over the ordinary practice of both countries.

Central America.

By the arrival of the Alaska, Panama dates are to 23d.

The steamer America was burned on April 11th, at the Port of San Juan del Sur, Nicaragua. She was bound to Panama from San Francisco, and had stopped for coal.

Five seamen belonging to the British ship Kelsington, in a drunken spree, became imbroiled with the armed police of Aspinwall on the 14th. The result was the police fired on the sailors, wounding 4, one seriously.

A Committee of the House of Representatives have reported a resolution to indict the President of Columbia, with four of his Ministers, before the Senate upon eight charges.

The Panama State law, confiscating private property for political offenses, had been annulled.

The yellow fever still rages in Peru.

South America.

NEW YORK, May 5.—A long letter appears from Minister Washburn and Mr. Webb, reaffirming the former statements relative to the treachery and murderous ferocity of Lopez in Paraguay.

Washburn says that since the great battle that took place soon after McMahon entered the camp of Lopez, nothing has been heard of him, and that is three months ago. At latest dates from Buenos Ayres not a word from him had been received by his friends. They feared he, too, had been deprived of his liberty. They have good reason for their fear, for if Lopez finds he can't make him useful, or from any reason should suspect him, as he has suspected everybody else, he will shoot him with as little compunction as he tortured and shot his brothers, sisters and ministers.

HOLLOWAY'S PILLS.—Nothing preserves the health so well as an occasional alterative in changes of weather, or when the nerves are unstrung. These Pills act admirably on the stomach liver, and kidneys, and so thoroughly purify the blood, that they are the most efficient remedy in warding off derangements of the stomach, fever, diarrhœa, dysentery, and other maladies, and giving tone and energy to debilitated constitutions. All who have the natural and laudable desire of maintaining their own and their family's health, cannot do better than trust to Holloway's Pills, which cool, regulate, and strengthen. These purifying Pills are suitable for all ages, seasons, climates, and constitutions, when all other means fail, and are the female's best friend. 37*

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structure. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lesson inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailments to anyone.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs, Bad Breasts, Burns, Bunions, Bite of Moschetos and Sand Flies, Coco-bay, Chiego-foot, Chilblains, Chapped Hands, Corns, (Soft)	Cancers, Contracted and Stiff Joints, Elephantiasis, Fistulas, Gout, Glandular Swellings, Lumbago, Piles, Rheumatism,	Scalds, Sore Nipples, Sore Throats, Skin Diseases, Scurvy, Sore Heads, Tumours, Ulcers, Wounds, Yaws,

Sold at the establishment of PROFESSOR HOLLOWAY 244 Strand, (near Temple Bar,) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices: 1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

. There is considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box. wi5-1y cow

ASSISTED FEMALE IMMIGRATION.

Families desirous of obtaining Female servants from England under the Government Grant, are requested to send in their applications addressed to the Immigration Board Office, Victoria, on or before the 1st May next. In the present early stage of the movement only a limited number can be procured.

The whole expense of bringing out a servant is estimated at $175; of which the Government will pay a part and the Applicant the balance, viz, by two promissory notes of $50 each; one payable on demand on receipt of information here of the sailing of the ship, and the other to be paid on demand on arrival at the ship.

It is proposed to pay to each person wages at the rate of from $10 to $12 a month; $50 of that portion of the Passage Money advanced by the applicant, to be repaid by instalments out of the wages of the female immigrant, who will be bound for two years.

Persons desirous of getting their friends in England to select their servants for them instead of the Committee in England, can do so under the arrangement of the Board.

Printed forms of application may be obtained at Messrs Hibben & Co.'s and at the Post Office, Victoria, and at the various Post Offices of the Mainland.

The Board of Immigration will be happy to further the wishes of persons in the Colony who may be desirous of taking advantage of the opportunity thus afforded of bringing out relatives at their own expense.

By order of the Board.

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

623 KEARNEY STREET, CORNER Commercial, San Francisco. Established in 1854, for the treatment of sexual and seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this state after an absence of one year during which time he visited the [illegible] hospitals of Europe, among [illegible] and Paris. The following [illegible] are among those visited by [illegible] street, Borough, St. Bartholomew's, Smithfield, St. [illegible] Luke's, Old Street, St. Mary's, Cambridge Place, Paddington, Lock, Harrow Road; University, Gower street, Westminster, Broad Sanctuary, Charing Cross, Agar Street, Strand, London, Whitechapel Road, Royal Free, Gray's Inn Road; King's College, Portugal street.

Dr. Gibbon has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun Society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

Dr GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr J. F. Gibbon, 623 Kearney street, corner Commercial, San Francisco.—Post office box 252.

☞ Private Entrance on Commercial Street ☜ Remember to put BOX 252 on the letter. Consultations FREE.

☞ Correspondents will please inform Dr Gibbon that they read his advertisement in the British Colonist.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD,

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a tea-spoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same, says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla. I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to made a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

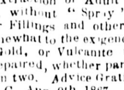

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
